

Guildford Model Engineering Society

Stoke Park, London Road, Guildford, Surrey, GU1 1TU

A Company Limited by Guarantee

LittleLEC 2017

This popular locomotive efficiency competition designed especially for smaller models having a maximum weight of 50 lbs. is returning to its ancestral home at Guildford Model Engineering Society's Stoke Park site for the tenth anniversary of the competition.

The competition will be held over the weekend of the 24th & 25th of June and the Society would like to invite all previous competitors together with any new participants who are willing to give it a go.

Guildford has 1405 ft of raised 3½" & 5" gauge track but no 2½" so it will not be possible to accommodate locomotives of this gauge this year.

Please see attached a simple application form. If posting this back please use the Societies address as shown above, marked for the attention of:

Jim Wilson (LittleLEC17) or email to jimwilson@gmes.org.uk

For participants who may be travelling from a distance, the Society can make available a limited number of spaces inside the running track to accommodate caravans or camping during the event. Alternatively there is both a Premier Inn and a Travel Lodge in close proximity to the GMES site. These hotels are however very popular and firm bookings should be made well in advance.

If you or any of your fellow club members have a Tich, Rob Roy, Juliet, Mona or something special under 50lb now is the time to dust them off, make sure the paperwork is up to date (All certificates will be checked on entry to the site) and get steaming ready for Guildford in June.

We look forward to hearing from you soon.
